

March Safety Message – Ice Safety

March is a time to look forward to warmer temperatures, melting snow, and longer days. The transition from winter to spring begins the transformation of frozen rivers, ponds, creeks and dug outs to bodies of open water. Many of our PRSD schools are located close to water sources and during this time ice can become unstable and extremely dangerous. Please take a few minutes and talk to your children about ice safety and the dangers associated with being on rivers, ponds, creeks and dug outs during this time of the year. For more information about knowing the dangers of ice please follow the attached link provided by the Canadian Red Cross.
